New Zealand Antique & Historical Arms Association Inc. #4 April 2011

EDITORIAL

There has been no shortage of opportunities for collectors to add to their collections over the past 3 months and the next 3 months looks to provide even more opportunities. We have had the Dargaville, Otorohanga and Napier Gun Shows and the South Canterbury Auction (Price list page 11) and looking to the next 3 months there is the Auckland Arms Fair, Taranaki Auction, Ted Rogers Auction, Ruahine Auction, Carvell's Auction and Whangarei Gun Show. Many of these events are organised by NZAHAA members, or NZAHAA members are involved in some way. Even if you are not in the market for buying at the present time, these gun shows and auctions offer a valuable opportunity to view and handle arms that you might otherwise not see and also the opportunity to meet and talk to other collectors.

If you have comments to make or news or articles to contribute, send them to oilyrag@xtra.co.nz
All views (and errors) expressed here are those of the Editor and not necessarily those of the NZAHAA Inc.

Phil Cregeen, Editor oilyrag@xtra.co.nz

NZAHAA AGM AND TARANAKI BRANCH AUCTION

Our Annual General Meeting will be held in New Plymouth of Saturday 8 April commencing at 9.30 am, and will be followed by Taranaki Branch Auction. The Notice of meeting and Auction Catalogue has been sent to all financial members, however since publication more lots have been added to the catalogue, the **revised catalogue** may be viewed on the NZAHAA website www.antiquearms.org.nz on the Home page under News.

FIREARMS SAFETY

All collectors of firearms have a responsibility for firearms safety whether they are active shooters or not, so I make no apology for including this information received from the Mountain Safety Council.

Over the past 10 years there have been 112 non intentional shooting incidents, 24 causing death. A primary cause of death (9 cases) has been hunters failing to positively identify their target, however another primary cause of death (10 cases) has been caused by loaded firearms that should not have been loaded, such as in a car or home. Last year there were 12 reported incidents resulting in one death.

None of us can afford to become complacent, no matter how experienced we think we are, these incidents have been caused by people of all ages and level of experience. While all seven of the basic rules of firearms safety are important, **always identify your target beyond all doubt and only load a firearm when ready to fire.**

Last year 9,764 new people applied for a Firearms Licence and received safety training from MSC Firearms Instructors. Every firearms user could benefit from re-familiarizing themselves with the Arms Code and in particular all parts of the seven basic rules of firearms safety.

If you are an experienced shooter have you thought of giving something back to the shooting community by becoming a Firearms Instructor? For more information contact: MSC Firearms Programme Manager Mike Spray Tel. 0800 486 7233.

INTERSTING BAYONET (Photos: Phil Cregeen)

Many Martin Henry carbines were relegated to Cadet Force use around the turn of the last Century. Bayonets for these were also shortened to be more manageable for small soldiers. Illustrated below is a Pattern 1860 Yataghan Bayonet shortened to a 13 in blade. Originally 20.5 mm the muzzle ring has been bushed twice, once to 18.5 mm for the Martini Henry and a second bush to 14.5 mm. The pommel is marked RAMC (Royal Army Medical Corp) over 7177, and dated 12/02, and has a Birmingham repair inspection mark.

I have been unable to determine what rifle this reduced MRD and Martini Henry mortise would fit, or was it just carried as a side arm by the RAMC? Your comments would be welcome to oilyrag@xtra.co.nz

Ref: (B224) British & Commonwealth Bayonets by ID Skennerton & R Richardson

NEW ZEALAND ARMS REGISTER a joint projected sponsored by NZAHAA and NZSG

The team is compiling information on **NZ Police batons** and would be interested to hear from any member who can provide images and information on different types.

There is some uncertainty surrounding the issue dates of certain arms, in as much as they are frequently marked with a date (such as N80Z or NZ 98), but examples have been noted where this date predates the manufacturers date. So the question is, does this NZ date represent the issue date or a contract date? If any member has found documents providing instructions to Store keepers or Armourers on how New Zealand Arms are to be marked the team would be pleased here from you.

Please send details to oilyrag@xtra.co.nz

Now **this is a gun show!!!**

LETTER TO THE EDITOR

On a visit to NZ in February this year, I attended a meeting of the Auckland branch NZAHAA, and found to my delight, the same enthusiastic bunch of collectors. There were 30 in attendance and at least 16 table displays, each member giving a brief talk on their display, it was good to see a young man of around 16 speak with authority on his display pistol. His parents were also there. I could remember holding this young man on my lap as a baby, so it is great to see some of the younger generation participating. The Range officer called for volunteers to bring a variety of firearms from Wheelock's, Flintlock's, Percussion to modern military cartridge to the next shoot to demonstrate and explain to some prospective new members what collecting is all about, once again this was very popular. Well done Auckland Branch, I'm proud to be a life member.

John Carter

P.S. Have included an article that maybe of use for your E-Gazette

John's article will appear in a later issue of the printed Gazette. There is a preview below Ed.

PREVIEW

10 bore Heavy Navy pattern Brunswick Percussion Rifle By John Carter

In August 2005 I acquired the above weapon to add to my British Sea Service Collection. This was the first one I've seen come up for sale in the past 40 or so years I have been collecting. These rifles are extremely rare as only 100 of them were ever made. So you can imagine my delight when the telephone bid was knocked down to yours truly. Sure I paid a lot for it, but when you've got to have it, money becomes less important. I then had to rummage round to sell off other bits of my collection to compensate. Don't we all?

UPCOMING EVENTS

2 & 3 April	Auckland Arms Fair, Henderson
9 April	NZAHAA AGM and Taranaki Branch Auction, New Plymouth
16 & 17 April	Ted Rogers Auction, Wellington
13 to 15 May	NZAHAA National Shoot, Nelson

25 June	Gun Show, Whangarei
3 July	Auckland Branch Gun Show
16 July	Gun Show, Christchurch
30 & 31 July	Wellington Branch Auction, Wellington
4 September	Collector Grade Arms NZ Ltd Auction, Auckland

NAPIER GUN SHOW

This two day show, held on the 12 & 13 of March, was the first organised by Hawkes Bay Branch for several years. Held in Napier Army drill hall, it comprised of a mix of members displays and sales tables.

The show attracted a good response from the general public and it was good to see members from every North Island Branch in attendance. Another great opportunity to catch up with old friends, make new contacts and also view some excellent collections. Below are some of the displays.

SHOOTING MILITARY PISTOLS by A J O' Neil

Do you collect military pistols?

Have you ever wished you could legally shoot any of your collection?

Well it may not be as difficult as you think! In recent years Pistol New Zealand has introduced a new pistol match which has allowed the 'B' registration of many classic military pistols. Quote: 'Pistol NZ Classic Pistol Match recognises the importance of the early handguns used in the development of our sport, and provides a competitive environment for their continued safe and valued use.'

So as long as you don't mind serving out the six month probation period and doing the mandatory 12 shoots per year required to get and maintain a 'B' (pistol) license endorsement you can now legally shoot any of the pistols in the approved pistol list. The only other requirement is that any 'C' registered pistol must be reregistered as a 'B' category pistol before it can legally be used on a Pistol N.Z. range.

For further information about joining a pistol club near you contact the Pistol N.Z. Executive Officer on 06 870 7575 or visit their website at <http://www.pistol.org.nz/>

Brief Description of the Classic Pistol Match

The match is shot at 10 and 25 meters and the course of fire consists of 48 rounds shot in 6 round strings.

Strings shot at 10 meters are timed at 4, 6 and 8 seconds per 6 rounds and 15 seconds per 6 rounds at 25 meters.

Regardless of pistol capacity all pistols are loaded with 6 rounds so there is no particular advantage to semi-automatic pistols over revolvers.

Approved Pistol List

Astra 300 400 600 900	DWM (Luger) P08	Nagant Model 1895	Steyr Steyr-Hahn 1911/12

KEEP YOUR BARREL COOL

Thanks to Kim McGrath for these photos and story

HMAS Brisbane had a 5 inch shell explode in the barrel on the gun line during the Vietnam war. Fortunately no-one was injured. The barrel just got so hot it exploded the shell in the breech. She went to Subic Bay where the Yanks removed the Mount and she went back to the gun line just using her X turret until repairs had been made.

MYSTERY OBJECT

An easy one this month, see photo below right, what is it? Send your answer to oilyrag@xtra.co.nz

Pat Glynn gave the correct answer for last month, below left. A Spring Clip Cartridge Extractor, suitable for all bores, which retailed for 3 shillings in 1950.

BUY SELL OR SWAP (Free advertising for NZAHAA members for 2 months)

WANTED I am sourcing props on the film Tintin for Weta Digital here in Wellington.

One of the props I am trying to find is a **late 1940s era marine signal/flare gun**.

As the Tintin movie is animated, the process of using props in the film is fairly simple. First we hire the item, then photograph it in our studio from many angles. These photographs are then given to the animators who create an animated version of the object. The prop is then given back to its owner.

I wondered if there was anyone in the association who would be interested in hiring out their flare gun for a short time? A fee could be negotiated of course and we would be open to the idea of the owner supervising the photo shoot if they wished. I understand how valuable and rare a signal gun of this kind would be.

If there was a suitable flare gun in your collection or you knew of anyone else who you think may be interested in this, I would really appreciate hearing from them.

I look forward to hearing from you,

Many thanks, Nicole

Annual July Auction – 30/31 July 2011

Changes in school holiday dates due to the Rugby World Cup has meant that the auction will be held a bit later this year. If you are planning to attend then you need to make sure of your dates and to make travel and accommodation arrangements early as there will be pressure on for space.

The catalogue is getting close to being full taking into account those items that are still to be collected and catalogued. We have another amazing collection of items that will appeal to a wide range of collecting interests.

Space can always be found for exceptional items so if you have been holding back it may be time to call Steve.

He can advise you of our very friendly Vendor commission rate

Hazard AUCKLAND

Hazard's Lee Sporting Magazine Rifle

For Deer or Cattle Shooting. The cheapest large calibre Repeater on the market.

Only **£2/15/-**

Freight extra.

Extra Magazines, 2/6 each.

Weight, 7½lbs. Length of barrel, 26 inches. Sighted up to 1,200 yards. Calibre, 43 Spanish.

Illustration shows wooden handguard, which is unnecessary, and has been dispensed with.

This arm is of the well-known bolt type, adopted by military organisations throughout the world on account of its simplicity, durability, and ease of manipulation, and is arranged to load from a magazine holding five cartridges, which can be placed in the rifle in the same space of time as is ordinarily consumed by the insertion of one cartridge in magazine arms of other types.

Penetration, a bout 13 pine boards ¾in. thick at 15ft. from muzzle.

Powder, 77 grains.

Weight of bullet, 395 grains. Muzzle velocity, about 1,400 feet per second.

Actual size. Cartridges for the Lee Magazine Rifle, 30/- per 100.

We can supply full length Military Pattern Lee Magazine Rifles. Weight, 9lb., £2 2/-. Freight extra.

Length of barrels, 32 inches.

Catalogues pages from the early 1900s. If you have an NZ issue Remington Lee then the NZART would like to hear from you, contact oilyrag@xtra.co.nz

96 A. & W. MCCARTHY,

No. 507. **REMINGTON LEE MAGAZINE RIFLE.** £2 10s.

Cartridges for Remington-Lee Rifles.

Price, per 100, 16s 6d.

Weight, 9lbs.

SNIDER CARBINES.

511-577 Second-hand. Price, 20s; railage, 1s. Cartridges for same. 12s per 100.

These carbines are not to be beaten for pig or cattle shooting, and are all in good order.

Rifle Hints for Shotgun Hunters.—The first thing to be done when a deer starts is to remember that you have a rifle in your hands and not a shotgun. The number that can be missed, even inside of 25 yards, with a rifle fired as a shotgun, by good shots on duck or rabbit, is perfectly amazing. A deer in market or in a picture looks quite large, but in reality they are a very small mark. There is around them an immense amount of vacancy, and the tendency of a bullet to find it is marvellous. — *Van Dyke.*

Hunting Clothes.—The hunting suit should be of a dull, neutral tint, drab gray, or "dead-grass" color, and should be of good, stout material to withstand briery thickets and rock climbing.

Hunting in Company.—When in company be sure of the position of your companion. Better loose a bird than shoot a friend.
