

Notice of Auction

Ian Rasmusen bayonet collection

Elco Bayonet

Dahlgren Bayonet

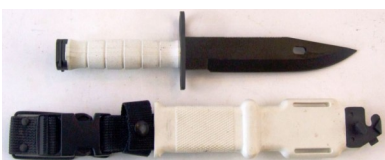

Notice is given of the forthcoming auction of a large section of the Ian Rasmusen international quality, comprehensive collection of Bayonets, swords, fencing equipment, knives, daggers etc. This is a unique opportunity for collectors to acquire seldom seen items.

Given the size of this collection it is proposed that the items be split in a manner that will see them sold, at auction, over a period of no less than 4 years. However, approximately 1/4 of the bayonets, some other selected items plus the rifle, helmet, books and china will be up for sale in the 2015 auction.

The New Zealand Antique and Historical Arms Association (Wellington Branch) Inc, has been privileged to undertake the sale on behalf of the family. The auction will be held over the weekend of the 11th and 12th of July in Wellington, New Zealand.

Ian was not only a well respected and active member of the Wellington Branch but of many other collecting organisations throughout the world and has accumulated his collection and a wide knowledge over the last 40 years or so. This is a sale that all true bayonet and knife collectors will not wish to miss.

Intending buyers—either on the floor or Postally—can register their interest in receiving a catalogue by post, or electronically, by contacting:

US M9 Bayonet

Yugoslavian bayonet

Australian Machete

Trench Dagger
